

Music Technician Occupations

Labor Market Analysis: San Diego County

October 2020

Summary

The brief provides labor market information about *Music Technician Occupations* to assist the San Diego and Imperial Counties Community Colleges with program development and strategic planning. According to available labor market information, *Music Technician Occupations* in San Diego County have a labor market demand of 156 annual job openings (while average demand for a single occupation in San Diego County is 277 annual job openings), and nine educational institutions in San Diego County supply 132 awards for these occupations, suggesting that there is a small supply gap in the labor market or that demand can be met with existing programs. *Music Performance Occupations* include “Audio and Video Equipment Technicians” and “Sound Engineering Technicians.” Entry-level wages are below the living wage for both occupations; however, median wages are above the living wage. This brief recommends not proceeding with developing a **new** program because 1) a small supply gap exists for these positions; 2) a high number of programs exist in the region; 3) these occupations’ entry-level earnings are below the living wage; and 4) the percentage of students who obtained a job related to their field of study and earned a living wage after completing related programs is **below** the state average for students who complete Career Education programs in general.

Introduction

This report provides labor market information in San Diego County for the following occupational codes in the Standard Occupational Classification (SOC)¹ system:

- **Audio and Video Equipment Technicians (SOC 27-4011):** Set up, or set up and operate audio and video equipment including microphones, sound speakers, video screens, projectors, video monitors, recording equipment, connecting wires and cables, sound and mixing boards, and related electronic equipment for concerts, sports events, meetings and conventions, presentations, and news conferences.
- **Sound Engineering Technicians (SOC 27-4014):** Operate machines and equipment to record, synchronize, mix, or reproduce music, voices, or sound effects in sporting arenas, theater productions, recording studios, or movie and video productions.

For the purpose of this report, these occupations are referred to as *Music Technician Occupations*.

Projected Occupational Demand

Between 2019 and 2024, *Music Technician Occupations* are projected to increase by 12 net jobs or one percent (Exhibit 1a). During this period, employers in San Diego County are projected to hire 156 workers annually to fill new jobs and backfill jobs due to attrition caused by turnover and retirement, for example.

Exhibit 1a: Number of Jobs for Music Technician Occupations (2009-2024)²

¹ The Standard Occupational Classification (SOC) system is used by federal statistical agencies to classify workers into occupational categories for the purpose of collecting, calculating or disseminating data. [bls.gov/soc](https://www.bls.gov/soc/).

² EMSI 2020.02; QCEW, Non-QCEW, Self-Employed.

Exhibit 1b breaks down the projected number of jobs change by occupation more specifically. As Exhibit 1b shows, *Audio and Video Equipment Technicians* are projected to increase the most by 29 total jobs between 2019 and 2024. *Sound Engineering Technicians*, however, are projected to decline during this period (Exhibit 1b).

Exhibit 1b: Number of Jobs for Music Technician Occupations in San Diego County (2019-2024)

Occupational Title	2019 Jobs	2024 Jobs	2019 - 2024 Net Jobs Change	2019-2024 % Net Jobs Change	Annual Job Openings (Demand)
Audio and Video Equipment Technicians	1,200	1,229	29	2%	136
Sound Engineering Technicians	195	178	(17)	(9%)	20
Total	1,395	1,407	12	1%	156

Online Job Postings

This report analyzes not only historical and projected data (traditional labor market information or LMI), but also recent data from online job postings (real-time LMI). Online job postings may provide additional insight about recent changes in the labor market that are not captured by historical data. Between 2010 and 2019, there was an average of 196 online job postings per year in San Diego County for *Music Technician Occupations* (Exhibit 2). Please note that online job postings do **not** equal labor market demand; demand is represented by annual job openings (Exhibit 1b). Employers may post a position multiple times for various reasons, such as increasing the pool of applicants, for example.

Exhibit 2: Number of Online Job Postings for Music Technician Occupations in San Diego County (2010-2019)³

Demand vs. Supply

Comparing labor demand (annual openings) with labor supply⁸ suggests that there is a **supply gap** for these occupations in San Diego County, with **156** annual openings and **132** awards. Comparatively, there are **2,790** annual openings in California and **3,593** awards, demonstrating that there is an oversupply across the state⁹ (Exhibit 6).

Exhibit 6: Labor Demand (Annual Openings) Compared with Labor Supply (Average Annual Awards)

Community Colleges and Other Postsecondary Educational Institutions	Demand (Annual Openings)	Supply (Total Annual Average Supply)	Supply Gap or Oversupply
San Diego	156	132	24
California	2,790	3,593	803

Please note: This is a basic analysis of supply and demand of labor. The data does not include workers currently in the labor force who could fill these positions or workers who are not captured by publicly available data. This data should be used to discuss the potential gaps or oversupply of workers; however, it should not be the only basis for determining whether or not a program should be developed.

⁸ Labor supply can be found from two different sources: EMSI or the California Community Colleges Chancellor's Office MIS Data Mart. EMSI uses CIP codes while MIS uses TOP codes. Different coding systems result in differences in the supply numbers.
