This brief provides labor market information about *Drafting and Design Occupations* to assist the San Diego and Imperial Counties Community Colleges with program development and strategic planning. *Drafting and Design Occupations* include “Architectural and Civil Drafters,” “Commercial and Industrial Designers,” “Drafters, All Other,” “Electrical and Electronics Drafters,” and “Mechanical Drafters.” According to available labor market information, *Drafting and Design Occupations* in San Diego County have a labor market demand of 284 annual job openings (while average demand for a single occupation in San Diego County is 289 annual job openings), and eight institutions supply 151 awards for these occupations, suggesting that there is a supply gap in the labor market. On average, entry-level wages are above the living wage. This brief recommends proceeding with developing a new program or modifying an existing program because 1) entry-level wages pay at or above the living wage and 2) a supply gap exists for these occupations.

Introduction

This report provides labor market information in San Diego County for the following occupational codes in the Standard Occupational Classification (SOC)¹ system:

- **Architectural and Civil Drafters** (SOC 17-3011): Prepare detailed drawings of architectural and structural features of buildings or drawings and topographical relief maps used in civil engineering projects, such as highways, bridges, and public works. Use knowledge of building materials, engineering practices, and mathematics to complete drawings.
- **Commercial and Industrial Designers** (SOC 27-1021): Design and develop manufactured products, such as cars, home appliances, and children's toys. Combine artistic talent with research on product use, marketing, and materials to create the most functional and appealing product design.
- **Drafters, All Other** (SOC 17-3019) All drafters not listed separately.
- **Electrical and Electronics Drafters** (SOC 17-3012): Prepare wiring diagrams, circuit board assembly diagrams, and layout drawings used for the manufacture, installation, or repair of electrical equipment.
- **Mechanical Drafters** (SOC 17-3013): Prepare detailed working diagrams of machinery and mechanical devices, including dimensions, fastening methods, and other engineering information.

For the purpose of this report, these occupations are referred to as *Drafting and Design Occupations*.

¹ The Standard Occupational Classification (SOC) system is used by federal statistical agencies to classify workers into occupational categories for the purpose of collecting, calculating, or disseminating data. [bls.gov/soc/](https://www.bls.gov/soc/).

Projected Occupational Demand

Between 2022 and 2027, *Drafting and Design Occupations* are projected to increase by 102 net jobs or four percent (Exhibit 1a). Employers in San Diego County will need to hire 284 workers annually to fill new jobs and backfill jobs due to attrition caused by turnover and retirement, for example.

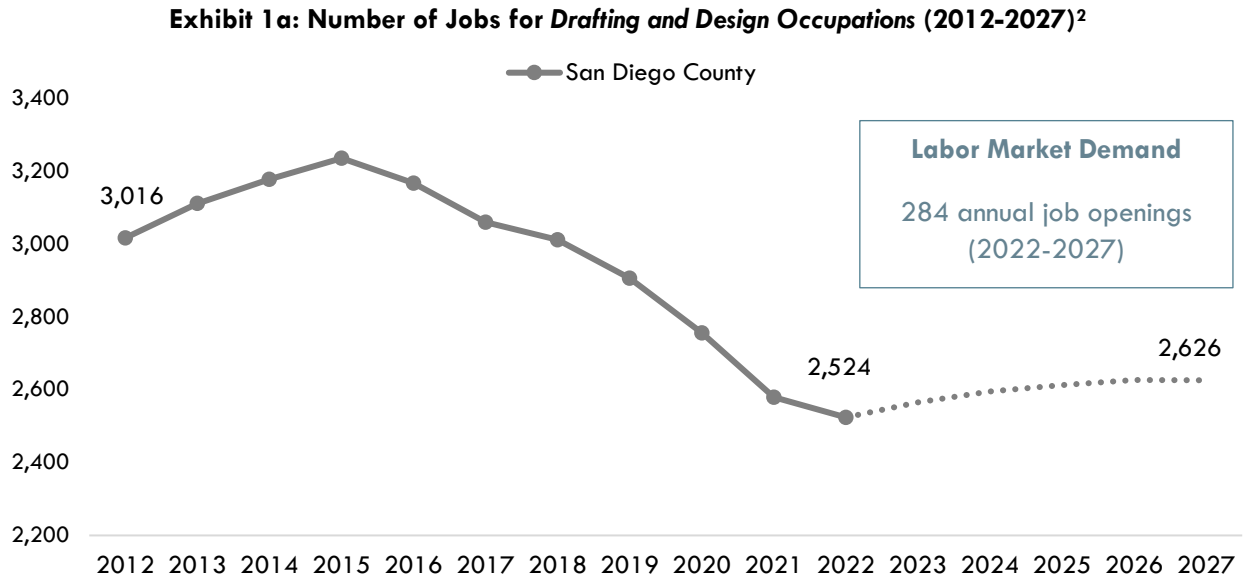

Exhibit 1b disaggregates the projected number of jobs change by occupation. “Architectural and Civil Drafters” are projected to have the most labor market demand between 2022 and 2027, with 152 annual job openings.

⁹ This brief uses a conservative estimate of program supply and only calculates awards from the TOP codes in Exhibit 3.

According to TOP data, six community colleges supply the region with awards for these occupations: Cuyamaca College, MiraCosta College, Palomar College, San Diego City College, San Diego Mesa College, and Southwestern College. According to CIP data, two non-community-college institutions supply the region with awards Newschool of Architecture and Design and University of California-San Diego (Exhibit 4).

Demand vs. Supply

Comparing labor demand (annual openings) with labor supply¹⁰ suggests that there is a **supply gap** for these occupations in San Diego County, with 284 annual openings and 151 awards. Comparatively, there are 3,233 annual openings in California and 2,645 awards, suggesting that there is also a **supply gap** across the state¹¹ (Exhibit 5).

Exhibit 5: Labor Demand (Annual Openings) Compared with Labor Supply (Average Annual Awards)

| | Demand (Annual Openings) | Supply ¹² (Total Annual Average Supply) | Supply Gap or Oversupply |
|------------|--------------------------|--|--------------------------|
| San Diego | 284 | 151 | 133 |
| California | 3,233 | 2,645 | 588 |

Please note: This is a basic analysis of supply and demand of labor. The data does not include workers currently in the labor force who could fill these positions or workers who are not captured by publicly available data. This data should be used to discuss the potential gaps or oversupply of workers; however, it should not be the only basis for determining whether or not a program should be developed.

¹⁰ Labor supply can be found from two different sources: Lightcast or the California Community Colleges Chancellor's Office MIS Data Mart. Lightcast uses CIP codes while MIS uses TOP codes. Different coding systems result in differences in the supply numbers.

Online Job Postings

This report analyzes not only historical and projected (traditional LMI) data, but also recent data from online job postings (real-time LMI). Online job postings may provide additional insight about recent changes in the labor market that are not captured by historical data. Between 2019 and 2022, there was an average of 17,296 online job postings per year for *Drafting and Design Occupations* in San Diego County (Exhibit 7). Please note that online job postings do **not** equal labor market demand; demand is represented by annual job openings (see Exhibit 1 b). While this brief includes online jobs postings data to help with curriculum development, the community colleges should note that this type of data is impacted by several variables: employers may post a position multiple times to increase the pool of applicants; a job posting can remain posted after a business decides not to fill a position; or an employer may use one posting to fill multiple positions, for example.
